Chrome Extension Permission Reset Guide (Clean Reinstall)

Chrome Extension · https://coreel.ai/help/chrome-extension-permission-reset-guide-clean-reinstall/

Use this when camera/mic prompts are stuck or extension permission state is inconsistent.

Full Reset Process

1. Remove coReel extension from Chrome.
2. Go to chrome://settings/content/camera and .../microphone.
3. Remove blocked/old permission entries related to coReel flows.
4. Open chrome://extensions and confirm extension is removed.
5. Reinstall extension (Web Store or Load Unpacked).
6. Open extension and log in.
7. Click **Enable Camera** and allow camera/mic.
8. Complete helper permission flow (if tab opens), then click **Finished**.

Verify Success

- Camera preview appears
- Microphone input is detected
- Recording starts/stops normally

Extra Cleanup (If Needed)

- Test in new Chrome profile
- Temporarily disable conflicting extensions
- Restart browser/OS before retest
