Sending Video Emails from coReel

My Emails · https://coreel.ai/help/sending-video-emails-from-myvideo-email/

Use this guide for sending directly from coReel workflows.

Before Sending

- Ensure at least one integration is active in /integration
- Select the correct video in your library
- Confirm account is active (trial/paid state supports sending)

Send Workflow

1. Go to **My Emails**.
2. Choose sender/integration account.
3. Select recipient(s).
4. Add subject and message.
5. Insert video snippet/link.
6. Click **Send**.

Recommended Send Checklist

- Subject is specific and relevant
- Message is short and personalized
- Single clear CTA
- Video preview/link verified

If Send Fails

- Reconnect integration

- Re-login to refresh session
- Retry with test recipient
- Check troubleshooting send-fail article for deeper steps
